

KUSHAGRA SRIVASTAVA

B.Tech CSE (AI/ML) · Mern Stack Developer

📍 Sector 62, Noida, India | 📞 9452235010 | ✉ kushagrasri2004@gmail.com

[🔗 Portfolio](#) | [🔗 GitHub](#) | [🔗 LinkedIn](#)

OBJECTIVE

B.Tech CSE student (2023–2027) with dual expertise in Frontend Development and AI/ML. Experienced in building responsive React + Tailwind web applications with real-time features, and currently developing skills in machine learning and deep learning to build data-driven intelligent systems. Seeking an internship in Web Development or AI/ML where I can contribute meaningfully and grow in a production environment.

EDUCATION

B.Tech in Computer Science & Engineering (CSE) 2023 – 2027

JSS Academy of Technical Education, Noida

Class XII (Senior Secondary) — CBSE Passed: 2022

New Standard Public School, Raebareli

Percentage: 78%

Class X (Secondary) — CBSE Passed: 2020

New Standard Public School, Raebareli

Percentage: 90.5%

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Tailwind CSS
Backend	Node.js, Express.js
Databases	MongoDB, MySQL, PostgreSQL
AI / ML	Machine Learning, Deep Learning, Supervised & Unsupervised Learning, Neural Networks
Libraries	NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch
Tools	Git, GitHub, Postman, Vite, NPM, Jupyter Notebook, Google Colab
Core & Languages	DSA(150+), System Design, Distributed Design, C++, Python, JavaScript

PROJECTS

Real-Time Chat Application React.js · Node.js · Express.js · Socket.io

- Built a fully functional real-time chat application with user authentication, live messaging, and media sharing.
- Implemented a backend server for socket handling and user session management.
- Designed a responsive, modern UI using React.js.
- Live Demo: chat-app-delta-six-39.vercel.app | Code: [GitHub/Chat-App](#)

Task Manager App React.js · Tailwind CSS · localStorage / MongoDB

- Developed a responsive task management app with task creation, update, deletion, status filtering, and completion tracking.

- Implemented localStorage for client-side persistence with optional MongoDB backend version.
- Designed a clean, modern UI for improved usability.
- Live Demo: task-manager-gold-psi.vercel.app | Code: [GitHub/Task-Manager](https://github.com/Task-Manager)

Weather App

*HTML · CSS · JavaScript ·
OpenWeather API*

- Built a responsive weather application integrating the OpenWeather API for live weather data fetching.
- Displays real-time temperature, humidity, and weather conditions with dynamic UI updates.
- Live Demo: weather-apps-lovat-nu.vercel.app | Code: [GitHub/weather-apps](https://github.com/Weather-Apps)

Credit-Based Loan Prediction System

*Python · Scikit-learn ·
Machine Learning*

- Built a classification model to predict loan approval based on user financial data.
- Performed end-to-end data preprocessing, feature selection, model training, and evaluation using Logistic Regression and Decision Trees.
- Improved model performance by analyzing key evaluation metrics (accuracy, precision, recall).

Smart Cart System

AI/ML Concept Project

- Designed an intelligent shopping system to automate billing and product tracking.
- Focused on system logic optimization for enhanced user experience; planned future integration with CV/IoT/ML.

CERTIFICATIONS

- AI/ML & Deep Learning — Apna College (May-2026)

UPCOMING PROJECTS

- Image Classification using Convolutional Neural Networks (CNN)
- Real-time AI Gym Trainer
- Intelligence AI Attendance
- AI Resume ATS System

ADDITIONAL INFORMATION

- Strong problem-solving mindset with a passion for frontend development and AI/ML real-world applications.
- Quick learner who actively implements new technologies through hands-on projects.
- Strong analytical skills; passionate about building intelligent, data-driven systems.
